TRADITIONS OF THE ACADEMY

ACADEMY MISSION

The mission of the Massachusetts Maritime Academy is to graduate educated men and women to serve the maritime industry as licensed officers or to serve the transportaion, engineering, environmental, and industrial interests of the Commonwealth and the Nation. The Academy supports the national defense by the commissioning of officers in the U.S. Merchant Marine and U.S. Armed Forces. The Academy believes in learning through application and requires students to spend a portion of their academic program at sea, in internships or cooperatives. Resident life is regimented, instilling in cadets honor, responsibility, discipline and leadership. A complementary mission is to provide lifelong learning opportunities, particularly for those in marine industries and to serve the Commonwealth and region in furthering its maritime interests.

Regimental Commander Ross Jarvis

To The Class of 2006,

All of the MO-FO's have blurred into one, all inspections have become a memory, the fun times are all we remember, and the years have passed without us realizing it. It is now our time to leave MMA. But think that our class can truly say that we left our Academy in better standing than when we arrived here four short years ago.

We endured through the trying times, always sticking together and offering words of encouragement when it was most needed. That is what our school is all about, working as a team. None of us could have made it through all the obstacles thrown at us alone. I hope you will all carry that aspect of our school with you for the rest of your lives.

I know that you will all do great things for this world. With the hard work and dedication you have all displayed over the past four years there is no limit to what you can do. I wish you all the best of luck in your endeavors and hope life brings you great happiness and success.

Sincerely Your Shipmate,
Ross A. Jarvis

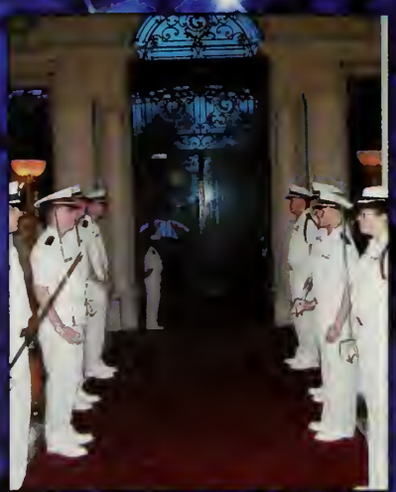
RING DANCE 2005



The Ring Dance Tradition

Next to graduation itself the Ring Dance is one of the highlights for a cadet at the Massachusetts Maritime Academy. Tradition dictates that each cadet's ring be worn about the neck of his or her escort on a length of ribbon until the ceremony. During this ceremony, the ring is dipped by the couple in a binnacle filled with water representing the seven seas. This simple act symbolizes each cadet's "marriage" to the sea. In past years this ceremony has taken place under a large replica of the ring. This year the ceremony is different in that each table includes a bowl designed in Academy colors, and comprises the three signal flags "MMA" - this will represent our binnacle. Simultaneously each cadet will dip their ring, symbolizing a bond between classmates, shipmates, and friends.

ATHLETICS

To The Class of 2006,

For those of you that participated in intercollegiate athletics, that aspect of your college career will be the one you have the longest and most vivid memories of. Those memories will outlast those of courses taken, training cruises and everyday life at MMA.

The coaching staff and athletic administration at the Academy will not forget you and the sacrifices you made over four years to represent the Academy on the field of play.

How can we forget the football career of Pat Tryon, Brendan Duggan's rise to greatness in D-III soccer , Casey Ivatts' four years of all-star performance in softball or Joe Bushy's six football and lacrosse seasons. Those are special memories, but we as a staff will remember all of you that made the daily effort in practice and gave it their best on game days. Remember…You will forever be what few can claim…college athletes.
